NO BORER SPRAY INJECTOR

CAUTION: Keep out of reach of children and pets

STEP 1 2 3 PROTECT

- 1. PROTECT:** Using Kiwicare **NO Borer Total Wood Protection** on bare wood and Kiwicare **NO Borer Spray Injector** on coated/painted wood.
- 2. FUMIGATE:** Knock down adult Borer before they mate and re-infest wood with Kiwicare **NO Bugs Super Fumigator**.
- 3. VENTILATE AND DRY:** Ensure that your sub-floor and roof spaces are dry and well ventilated to prevent further Borer. Check for plumbing leaks and unblock all air vents.

- Kills borer larvae in the treated labyrinths and penetrates to surrounding wood
- Protects wood by preventing borer adults laying eggs in treated holes
- Long lasting timber protection from wood boring insects including Common Borer, Two-tooth Borer and Citrus Tree Borer

100%
OUR PERSONAL GUARANTEE
We stand by our products. If they don't do what they say, we'll see you right!

KIWICARE. NO BORER™

SPRAY INJECTOR

FOR LONG LASTING TIMBER
PROTECTION FROM BORER
200 ml

OUR PERSONAL GUARANTEE

READ LABEL BEFORE USE

DIRECTIONS

Shake the can for at least 10 seconds. Wear gloves and eye protection. Remove the cap.

INJECTING (On coated or painted wood with holes):

1. Fit the supplied nozzle into the hole of the aerosol button so that the circle disc (flange) is away from the aerosol button.
2. Insert the injector nozzle firmly into the borer flight holes and hold it into place by pressing on the flange at the end of the nozzle.
3. Press the aerosol button for 1-2 seconds, then wait 2-3 seconds before removing the nozzle.
4. Repeat in all holes in the timber.
5. Wipe surface with a soft cloth to remove residual liquid.
6. Once dry, the holes can be filled in and painted over.

SPRAYING (For bare wood protection):

1. Spray the bare wood liberally until the surface is wet.
2. Leave to dry before painting or varnishing. A second coat will give deeper penetration and longer lasting protection.

FOR BEST RESULTS

- ✓ To assist in eradicating Borer, use as part of the Kiwicare 1-2-3 Borer Control Programme.
- ✓ For large areas of bare timber such as sub-floors use Kiwicare **NO Borer Total Wood Protection**.
- ✓ To control adult beetles that have emerged from timbers that cannot be accessed, use Kiwicare **NO Bugs Super Fumigator**.
- ✓ Ensure timbers are protected from leaks and are kept dry and well ventilated.

ACTIVE INGREDIENTS

1g/L Permethrin in the form of an aerosol.
Propellant: Hydrocarbon.

WARNING

Flammable Aerosol; may cause mild skin and eye irritation. May be harmful and cause reproductive toxicity via repeated exposure. May cause respiratory and skin sensitisation.

PRECAUTIONS

Keep out of reach of children. Avoid using where food is exposed. Keep away from heat. Pressurised container. Do not pierce or burn, even after use. Avoid direct skin, oral and inhalation exposure.

FIRST AID

If eye contact occurs, flush eyes with running water for 15 minutes. If sprayed on skin, wash affected areas with soap and water. If swallowed, seek medical advice or contact the National Poisons Centre on 0800 764 766.

ENVIRONMENTAL CARE

This product is very ecotoxic to aquatic and soil environments. Harmful to terrestrial invertebrates. Collect spillage and avoid releasing to the environment.

STORAGE/DISPOSAL

Store in a cool dry place, away from heat or direct sunlight and out of reach of children. Recycle can if a facility is available or place can in household rubbish. Avoid contamination of waterways.

As Kiwicare Corporation Limited has no control over the storage or use of this product, no liability is accepted for accidents or damage arising from the incorrect storage or use of this product.
