

NO BUGS SUPER FUMIGATOR

KIWICARE

CAUTION: Keep out of reach of children and pets

READ LABEL BEFORE USE

DIRECTIONS

1. Close all exterior windows and doors. For voids such as sub-floors and roof voids restrict ventilation by sealing air vents.
2. Remove any pets, plants or food from all areas to be fumigated. Fish tanks should be covered and turned off.
3. Turn off or remove all smoke alarms. Turn off air circulation systems.
4. Remove the lid from the top of the plastic container and dispose of the cardboard disc.
5. Place plastic container in a central position on a firm heat proof base e.g. Brick or tin lid.
6. Pour water up to the dotted line on the plastic container. Do not fill above the dotted line.
7. Open the foil package and remove fumigator can.
8. With the red side facing upwards. Place the fumigator into the water in the plastic container.
9. Replace plastic ring cap on container. Fumigator will start in 1-2 minutes after placing in water.
10. Leave fumigator area closing external doors and windows.
11. Do not return inside for at least 3 hours. Before reoccupying rooms, open doors and windows to allow the treated area to air for 30 minutes
12. Vacuum room thoroughly and wipe down food preparation surfaces.

Caution: We recommend not using in enclosed volumes less than 150 m³ for this fumigator.

FOR BEST RESULTS

- ✓ To assist in eradicating bugs inside and outside of your home, use as part of the Kiwicare I-2-3 Bug Elimination Programme.
- ✓ Remove or cover all foodstuffs before application.
- ✓ Wipe down food contact areas before reintroducing any foodstuffs.
- ✓ Kiwicare NO Bugs Super Fumigators are not smoke bombs; they produce a vapour not a smoke. But we still recommend switching off smoke alarms and air circulation systems.
- ✓ See "how to" videos at www.kiwicare.co.nz

ACTIVE INGREDIENTS

72 g/kg Cyphenothrin in the form of a vapour release product.

WARNING

May cause respiratory sensitisation. Harmful to human target organ. Avoid contact with eyes and skin or inhalation of vapour.

PRECAUTIONS

Wash hands and exposed skin after use. After fumigation, wash down food preparation surfaces and utensils.

FIRST AID

If swallowed rinse mouth and drink 1-2 glasses of water or milk. Do not induce vomiting. If eye contact occurs, flush eyes with running water for 15 minutes. If spilled on skin, wash with soap and water. Seek medical advice or contact the National Poisons Centre on 0800 764 766 and have product label at hand.

ENVIRONMENTAL CARE

Very ecotoxic to the aquatic environment. Do not contaminate any waterway with product or empty container. Ecotoxic to terrestrial invertebrates.

STORAGE/DISPOSAL

Store in original container in a cool dark place out of reach of children. Dispose of empty container in household rubbish. As Kiwicare Corporation Limited has no control over the storage or use of this product, no liability is accepted for accidents or damage arising from the incorrect storage or use of this product.

Kiwicare Corporation Limited, 225 Maces Road, Christchurch, New Zealand. Ph: 643 399 0770

NO BUGS SUPER FUMIGATOR

1. **IDENTIFY:** Identify the insect/fly/spider/bug using the online **Kiwicare Problem Solver**. Look for where the bug may originate e.g. breeding site. Get rid of breeding site if possible.
2. **PROTECT:** Spray Kiwicare **NO Bugs Super Protective Barrier** on breeding sites, where bugs are seen contacting surfaces and in a barrier ring around the exterior and inside of buildings.
3. **FLUSH & KILL:** Use Kiwicare **NO Bugs Super Bug Bomb** and/or Kiwicare **NO Bugs Super Fumigator** in internal spaces to quickly and safely flush bugs from hiding places and eradicate them. Kiwicare **NO Bugs Super Bug Bomb** is best used in open spaces such as internal rooms. Kiwicare **NO Bugs Super Fumigator** is best used in large spaces and spaces with low head clearance such as sub-floors and roof voids.

NO BUGS SUPER FUMIGATOR
